EXPERIENCE

Steel Forgings, Inc. **|** March 2024 – Present (Remote)

Steel Forging | React Developer

- Crafted frontend components using TypeScript while ensuring adherence to coding standards and best practices.
- Integrated Supabase Rest API's in the project for seamless user experience.

Coding Cubicle Private Limited **|** January 2023 – June 2023 (Remote)

STOCK PRICE Alert | React Developer Intern

This project is developed for stock market traders where they can get alerts when a stock crosses the price or volume they specify or when their stock moves up or down by certain percentage in a day.

- Integrated third-party API's in the project
- Debugging and testing code
- Documenting and testing new software applications
- Researching, investigating and fixing a wide range of technical issues

SKILLS

HTML, CSS, Bootstrap, JavaScript, ReactJs, Tailwind CSS, Swagger, Vercel, Git, GitHub, VS Code, localstorage, API Integration

PROJECTS

Dashboard

This project is developed using **ReactJS, Tailwind CSS**. This project uses browser's local storage to store and manage data for all the sections and perform CRUD operations on them.

Expense-Tracker

Developed using **ReactJS, Tailwind CSS,** this project lets the user keep a track of all the expenses done by them. It allows the user to **download the data in the form of a csv file**. It uses local storage for storing data locally.
